INTRODUCTION

The welfare and safety of children and young people in Shropshire is paramount. Everyone who works with children has a responsibility for keeping them safe.

Shropshire Safeguarding Children Board (SSCB) has a range of roles and statutory functions including developing local safeguarding policy and procedures and scrutinising local arrangements. This includes policy and procedure in relation to the training of persons who work with children or in services affecting the safety and welfare of children and monitoring and evaluating the effectiveness of this training.

No single professional can have a full picture of a child’s needs and circumstances and, if children and families are to receive the right help at the right time, everyone who comes into contact with them has a role to play in identifying concerns, sharing information and taking prompt action.

In order that organisations and practitioners collaborate effectively, it is vital that every individual working with children and young people or their families is aware of their own role and the role of other professionals in order to safeguard children. In addition, effective safeguarding requires clear local arrangements for collaboration between professionals and agencies.

There should be a culture of continuous learning and improvement across the organisations that work together to safeguard and promote the welfare of children. Professionals and organisations need to reflect on their practice, identify opportunities to share and promote good practice so that there is a growing understanding of what works well. Conversely, when things go wrong there needs to be a rigorous, objective analysis of what happened and why, so that important lessons can be learnt and services improved to reduce the risk of future harm to children.

The SSCB Training Strategy applies to the training and development necessary for both staff and volunteers for them to effectively safeguard and promote the welfare of children. This strategy builds on the partnership arrangements already in place to deliver the Workforce Strategy. SSCB training is based on the model on the following page, which forms part of the Children’s Workforce Strategy approach to identifying the organisation of training.

All organisations should identify the training needs of all staff and have learning and development plans in place. All safeguarding training sits within one of the following tiers, Mandatory Induction, Universal, Targeted or Specialist training. Examples of target groups for each tier are given on page 5. Suggested Learning Outcomes to support single agency training can found in SSCB Training Strategy which can be accessed on the Training Page of the SSCB website http://www.safeguardingshropshireschildren.org.uk/professionals-and-volunteers/safeguarding-training/

All Safeguarding training modules are reviewed regularly, responsive to emerging national and local safeguarding themes, publications, statutory frameworks, research and legislation.

The SSCB Training Pool consists of professionals from many different agencies who work in Shropshire and who are knowledgeable about safeguarding and promoting the welfare of children.

All Training Pool members have completed an SSCB approved Train the Trainers programme or professional equivalent.

Trainers are supported to develop their skills and knowledge by undertaking further training, attending conferences and regular Training Pool meetings as well as researching up to date information and material. Training delivery is quality assured by the SSCB Training Sub Group.

EVALUATIONS

Initial Evaluation
Once you have been marked as having attended a face to face training module or have completed an e-learning module you will sent an email and asked to complete an initial online evaluation.

The aim of this evaluation is to assess the quality of the training provided and delivered and how effective it has been at meeting the set aims of the session. Initial evaluations provide the SSCB Training Co-ordinator with a rich source of information about the quality of the training experience and suggestions for improvement for future training. These comments inform the reviews of the training module.

Learners will not be able to print out certificates of attendance without having completed this initial online survey.

Impact Evaluation
3 months after attending a face to face training module, you will be emailed and asked to complete this second ‘impact’ evaluation.

This is an important tool for SSCB training as the aim of this is to evaluate the impact the training has had on professional practice, understanding thresholds and ultimately the difference this makes to children, young people and their families.

Telephone Evaluation
As part of the SSCB Training Annual Report the SSCB Training Team or agency representatives from the SSCB Training Sub Group may contact a random sample of learners to ask about the training they attended. The aim of this conversation is to further enquire whether the training has had an impact on practice and ultimately made a difference to children, young people or their families.

Visit the SSCB website for Child Protection Procedures and Safeguarding Training information at http://www.safeguardingshropshireschildren.org.uk

INDUCTION/UNIVERSAL TRAINING

E-LEARNING MODULES

To support this training, the SSCB Contacts & Definitions Handout contains important contacts and information and is available to download by clicking on this link or from our Safeguarding Training webpage http://www.safeguardingshropshireschildren.org.uk/professionals-and-volunteers/safeguarding-training/

Agencies have a responsibility to ensure that all their staff have an induction which raises awareness of safeguarding issues.

E-learning can support agencies to enhance their training in both Mandatory Induction and Universal Tiers.

Free, certificated, e-learning courses can be accessed through the Home Office on PREVENT or Female Genital Mutilation (FGM) or Forced Marriage. SSCB has purchased a number of e-learning licences from Safeguarding e-Academy which is a division of Virtual College. The SSCB is currently offering all these e-learning modules free of charge to anyone working with children and young people or their families in Shropshire. Modules can be removed or changed by SSCB Inter-agency Training Team at any time depending upon priorities or numbers of licences available.

Please note that failure to complete any e-learning module within 12 weeks of applying will result in the learner having their licence for this training revoked. The SSCB will only authorise a maximum of 3 e-learning modules in any one year per learner. The number of licences available to SSCB is not unlimited and learners should be viewing all safeguarding training as part of their continuous professional development and spread their training out over a 3-year period.

Living with a parent or carer who has mental health problems does not necessarily mean a child will suffer abuse, but there is a risk that there will be a negative impact. In this module we explore the challenges that different mental health issues pose, as well as a range of best practice tools which can be used to assess the needs of parents and support the welfare of children.

In order to put the issues into context learners can drop in to follow the story of one parent, Elena, as she firstly experiences mental distress and subsequently accesses services tailored to her needs.

**Certification**

The course comes with an online assessment and certificate on achieving a satisfactory pass mark.

**Duration**

Approximately 1 ½ hours. The length of time taken depends entirely on how quickly you can study and absorb the material. You can proceed as quickly or slowly as you like.

**SAFER WORKING PRACTICES**

The starting point for this module is to look at why you need to undertake training on the protection of children and young people. All adults who come into contact with children in their work have a duty of care to safeguard and promote their welfare. Practitioners have a key role in shaping the futures of young people. The vast majority of adults working with young children act professionally to provide a safe and supportive environment. However, in this area of work, tensions and misunderstandings can occur; the answer is not to work in a bubble.

We have learnt from many adults, they are inadequately informed about their responsibilities and, as a result, they may unintentionally avoid certain practices completely. This should not be the case and this module aims to outline clearly what behaviours are and are not acceptable.

On completion of this module learners will have covered these learning objectives:

- Increased your awareness of issues relating to allegations management
- Identified signs of inappropriate adult behaviour towards children and young people
- Gained confidence in challenging inappropriate behaviour
- Increased your awareness of how to ensure children and young people with whom we work are protected
- Understood the importance of sharing information appropriately and keeping records
- Understood your responsibility to ensure your behaviour is professional at all times

**Certification**

The course comes with an online assessment and certificate on achieving a satisfactory pass mark.

**Duration**

With 40 interactive screens, it is estimated that this module will take approximately 1 - 1 ½ hours to complete (depending on learning speed). As an e-learning module you can complete this training in convenient stages. The system will record your progress throughout.

TRAFFICKING, EXPLOITATION AND MODERN SLAVERY

Human trafficking, human exploitation and modern slavery are alarmingly widespread issues in today's society. Statistics from Unseen show that there was a 35 per cent increase in the number of people identified as trafficking victims in the UK from 2016 to 2017, while 4,586 victims of modern slavery were reported to the Home Office in 2016 alone.

Thousands of children and adults are exploited each year for cheap or unpaid labour, sexual abuse or domestic servitude, which can have a devastating impact on their physical and mental wellbeing.

It is vital that the perpetrators of these crimes are caught, which is only possible with the support of front-line professionals who are trained in identifying potential signs of exploitation and understand the appropriate course of action to take. That's what our Trafficking, Exploitation and Modern Slavery e-learning course is designed to educate people about.

After completing the course, learners will be able to:

- Define and explain the meanings of adult and child trafficking, human exploitation and modern slavery
- Be aware of and make sure to respect the rights of victims of human trafficking
- Act in line with your own responsibilities as a professional and be aware of the responsibilities of other authorities in the UK

TARGETED TRAINING

NEGLECT: NSPCC GRADED CARE PROFILE 2 (6 hours)

Target Audience
This training is aimed at anyone involved in evaluating the care and development of a child. In the context of neglect this could, for example, include (but not exhaustive): social workers; CAFCASS (children’s guardian); teachers & pastoral care, family support workers, early years providers, education welfare officers or equivalent; housing officers; health visitors, school nurses and other healthcare staff.

Background Information
SSCB is committed to promoting working in partnership with children, families and partner agencies to identify neglect at the earliest opportunity. And where necessary ensure access to the right services at the right time for those children and families in need of support and or intervention by ensuring there is a robust Safeguarding System in Shropshire.

In order to achieve this when specifically focusing on neglect all partners agree to work collaboratively to:
1. Identify children at risk of neglect at the earliest opportunity;
2. Respond promptly and effectively to address the underlying factors;
3. Maintain our focus on the experiences of children;
4. Ensure that children are protected from harm and
5. Minimise the long term effects of childhood neglect.

What is Graded Care Profile 2 (GCP2)
GCP2 is an evidence based assessment tool which is culturally neutral and is for evaluating levels of parental care. GCP2 is an assessment tool that focusses on one specific child and parent. It provides an excellent way to measure and scale the quality of care delivered whilst keeping the child at the centre. It works well alongside Webstar or Early Help Assessments in Shropshire.

Course Aims & Objectives
• Consolidate knowledge in relation to neglect.
• Use shared language.
• Understand the evidence based and nationally evaluated assessment tool.
• Become accredited to use GCP2.

SPECIALIST TRAINING

REDUCING THE RISK OF SUDDEN INFANT DEATH SYNDROME (SIDS)

Target Audience: This event is aimed at anyone who cares for babies (up to 2 years) or who advises parents/carers on caring for a baby. It would also be relevant for any practitioners who may participate or contribute to the Rapid Response following the sudden and unexpected death of a baby. Knowledge for staff who have previously attended this event can be updated by accessing The Lullaby Trust website https://www.lullabytrust.org.uk/

Aim of Event: Sudden Infant Death Syndrome (SIDS), sometimes referred to as cot death, is the sudden and unexplained death of an infant, where no cause is found after a detailed investigation including a post mortem is undertaken. SIDS claims the lives of approximately 200 babies every year in the UK; that’s over 4 babies per week. Since parents and carers have been following the risk reduction advice first promoted in the early 1990’s, the number of infants dying has fallen significantly.

The speaker at this event is Karen Molloy, Regional Development Officer from The Lullaby Trust. The Lullaby Trust is a charitable organisation aiming to prevent unexpected deaths in infancy and promote infant health. The Lullaby Trust funds research, supports families whose babies have died suddenly and unexpectedly, disseminates information on infant health, baby care and sudden infant deaths to health professionals and the general public, and works with professionals to improve investigations when a baby dies.

Objectives:
• Provide an understanding of what Sudden Infant Death Syndrome (SIDS) is
• Help you understand vulnerable babies and families
• Update on current evidence-based safer sleeping advice
• Teach ways of getting the message across to others and potential barriers to this.

Cost: FREE of charge to all, but please note the Telford & Wrekin SCB Cancellation Policy
